**Factor 7: Alcohol or Drug Abuse by Suspect**

**A** Drug and/or alcohol abuse  
 **B** Under the influence when current altercation started  
 If so, what type and quantity: \_\_\_\_\_

**Notified by:**  911 Call  Non-Emergency Dispatch  
 Officer Initiated  Other \_\_\_\_\_

Officer completing form \_\_\_\_\_  
 Date \_\_\_\_\_ Time \_\_\_\_\_ **Submit**

The Domestic Violence Supplement does not take the place of a narrative. Domestic violence cases are complex. If there are additional observations or if a victim is unable or unwilling to respond to the questions, indicate such in the narrative. The seven risk factors are numbered and are in red (color copies) boxes or darker gray boxes. Some studies indicate that the italicized observations may be significant predictors of lethality. Form date: November 2012.

## Idaho Risk Assessment of Dangerousness In Domestic Violence Recommended Policy for Law Enforcement

Domestic violence cases are complex. This policy recommendation does not preclude a higher response based on an officer's experience and/or observations at the scene.

### SEVEN FACTORS INDICATING RISK OF FUTURE HARM AND/OR LETHALITY

1. History of Domestic Violence
2. Threat to Kill Victims and/or Children or Others (parents, friends)
3. Threats of Suicide
4. Recent Separation
5. Obsessive, Coercive, or Controlling Behavior
6. Prior Police Contact
7. Alcohol or Drug Use and Abuse by Suspect

#### 1-3 FACTORS

Case where at least one *item* is checked across 1-3 different factors require standard follow-up procedures with victim of domestic violence.

#### 4-5 FACTORS

Case where at least one *item* is checked across 4-5 different factors require following up with the victim of domestic violence within 72 hours.

#### 6-7 FACTORS

Case where at least one *item* is checked across 6-7 different factors require following up with the victim of domestic violence within 48 hours.

#### ITALICIZED FACTOR/S

One exception to this guideline should be in cases in which attempted strangulation, recent separation, forced sex, and extreme possessiveness or controlling behavior exist as these have been demonstrated across some studies as significant predictors of lethality. For these cases, it is recommended that, *no matter how many factors contain a checked item, contact with the victim should be made within 24 hours.*
