

AJA Talent Search

Dear Colleague:

On many occasions, the American Judges Association is asked to provide a judge's perspective on an issue of national importance. Consequently, I am compiling a list of judges willing to represent the Association by contributing their talents in a variety of arenas. If you are willing to help the American Judges Association in any of the following areas, please so indicate below. Whether or not you can represent the Association, we would appreciate having your e-mail address. Terry Elliott
